

Campaign tracker: the story so far

- **Trees planted in Jan – Mar 2014 period: 69,797**
- **Total trees planted so far: 729,868**
- **Location: Malawi, Africa**
- **Type of trees:** we are focusing mostly on **Guava** and **Papaya** trees, both of which grow quickly and provide abundant fruit. Guava trees grow in 4-5 years whilst Papaya trees grow in 2-3 years
- In association with our friends at **Ripple Africa**

Focus: Liwawa Fruit Club

- This orchard was set up in 2008 after receiving its first fruit tree seedlings with help from Fruitful Office
- They now have tangerine, orange, guava, avocado pears and mango trees
- In a few months' time the local community will be able to eat their first oranges and guavas – which they have grown themselves
- Watch a short video here: <http://youtu.be/77OdNof7BBA>

Fruit Clubs benefit local communities and help to conserve the environment
