

### Campaign tracker: the story so far

- Trees planted in Apr – Jun 2014 period: 74,037
- **Total** trees planted so far: 803,905
- **Location:** Malawi, Africa
- **Type of trees:** we are focusing mostly on **Guava** and **Papaya** trees, both of which grow quickly and provide abundant fruit. Guava trees grow in 4-5 years whilst Papaya trees grow in 2-3 years
- In association with our friends at **Ripple Africa**

### Focus: the tree planting timeline

Jul-Dec

**The seeds are planted and raised**

- Seeds and polythene tubes (for protection) are provided to some 10,000 households, as well as many community centres
- Advice and monitoring provided

Dec-Feb

**Trees are planted out in the rainy season**

- With the correct water and weeding, Guava and Papaya trees grow quickly and can now be transferred to their final planting site
- Trees are planted locally – either next to homes or in local fields

+ 2-3 years

**The trees grow and produce fruit**

- The trees improve local soil conditions and provide the households with fruit - either to eat or sell for profit
