

Campaign tracker: the story so far

- **Trees planted in Apr – Jun 2015 period: 94,949**
- **Location: Malawi, Africa**
- **Type of trees:** we are focusing mostly on **Guava** and **Papaya** trees, both of which grow quickly and provide abundant fruit. Guava trees grow in 4-5 years whilst Papaya trees grow in 2-3 years
- In association with our friends at **Ripple Africa**

Case study: a household in Kalowa

- David and Agnes Mzimba have been growing Fruitful Office trees for two years now
- This year they have planted 11 Guava trees and 5 Papaya trees for fruit, and 25 Senna Siamea trees for firewood and poles for building. These trees have been planted around their home and along their boundaries with their neighbours
- The trees that they planted last year are now growing well and have benefitted from the recent rains
- In addition to firewood and fruit, the shade that the trees will provide will be useful

David Mzimba with one of this year's Guava trees
