

Planting Fruit Trees campaign

Apr – Jun 2022

FRUITFUL OFFICE

Campaign summary

- **Location:** Malawi, Africa
- **Type of trees:** we are focusing mainly on Guava and Papaya fruit trees, as well as trees for firewood like Senna Siamea, Pine and Blue Gum
- **Who benefits:** poor Malawian families benefit from the trees both for income generation and to provide both fruit and firewood for their own consumption
- **Working with:** our friends at Ripple Africa

Taking care of the tree nurseries

- It is now dry season and a new annual tree planting cycle is just getting started
- It all starts with seedlings being planted and grown within the tree nursery environments. Ripple Africa provides training and materials to the community tree club leaders
- This protected environment (regular watering, shade, protection from predators) gives each seed the best possible chance for survival – before getting planted out at the end of the year

A community tree club planting Avocadoes
