

Planting Fruit Trees campaign

Jan–Mar 2020

FRUITFUL OFFICE

Campaign summary

- **Location:** Malawi, Africa
- **Type of trees:** we are focusing mainly on Guava and Papaya fruit trees, as well as trees for firewood like Senna Siamea, Pine and Blue Gum
- **Who benefits:** poor Malawian families benefit from the trees both for income generation and to provide both fruit and firewood for their own consumption
- **Working with:** our friends at Ripple Africa

Case study: farmers teaching farmers

- Blessings Mkandewiri is a farmer and, assisted by Ripple Africa, has so far planted 500 pine trees, 10 orange trees, 10 tangerine trees, 10 mango trees and 100 guavas. He has done a wonderful job and is very passionate to plant more each year
- This year he is going to be training other local farmers on how to set up a tree nursery and then, subsequently, plant the young trees out
- Every year more and more farmers new to the campaign are being taught by existing farmers, and the standard is very high
