

Planting Fruit Trees campaign

Jan - Mar 2025

FRUITFUL OFFICE

Campaign summary

- **Location:** Malawi, Africa
- **Type of trees:** we are focusing mainly on Guava and Papaya fruit trees, as well as trees for firewood like Senna Siamea, Pine and Blue Gum
- **Who benefits:** poor Malawian families benefit from the trees both for income generation and to provide both fruit and firewood for their own consumption
- **Working with:** our friends at Ripple Africa

Planting tree season focus: farmer Esoul

Ripple Africa tree planting coordinator Zikani caught up with farmer Esoul during this year's tree planting campaign:

- Esoul had raised 1,000 seedlings in his tree nursery and rushed to plant them out following the arrival of the rains
- To save carrying the seedlings, he transports them to his land using a wheelbarrow
- Esoul is extremely proud of his accomplishments and is looking forward to seeing his trees grow

Pine trees provide a sustainable source of timber and firewood and individual farmers are really seeing the long term economic benefit of growing trees for the future.
