

### Campaign tracker: the story so far

- **Trees planted in Jul – Sep 2013 period: 63,910**
- **Total trees planted so far: 598,398**
- **Location: Malawi, Africa**
- **Type of trees:** we are focusing on **Guava** and **Papaya** trees, both of which grow quickly and provide abundant fruit. Guava trees grow in 4-5 years whilst Papaya trees grow in 2-3 years
- In association with our friends at **Ripple Africa**

### Focus: Meeting Force Ngwira

- As part of their 10-year celebrations, Ripple Africa brought three Malawian employees to the UK
- Force Ngwira, Environmental Program Manager, personally thanked our clients for the big difference they are making:
  - Malawians need to recognise that planting trees (which is currently being done at the household level) provides food and an income source (if sold)
  - Small steps are taken but overall the impact can be significant (over 10,000 families each raise 35 trees) – building a lasting legacy for future generations
