

### Campaign tracker: the story so far

- **Trees planted in Oct-Dec 2016 period: 131,419**
- **Location: Malawi, Africa**
- **Type of trees:** we are mostly focusing on Guava and Papaya trees, both of which grow quickly and provide abundant fruit. Guava trees grow in 4-5 years whilst Papaya trees grow in 2-3 years
- In association with our friends at **Ripple Africa**

### Focus: the seedlings get planted out

- The seedlings planted and grown within the tree nursery environments (which is what you, as our customer, are contributing towards) are now being planted out
- The planting coincides with the start of the rainy season, which runs from December to May
- This year the main focus will be on larger farms and farm cooperatives, each of which have planted 20-30,000 seedlings in nursery
